## VISION

Provide affordable bilingual theological education under the full authority of the Holy Scriptures, in accordance with the doctrines of grace and the historical legacy of Evangelical Protestants reformers of the 16th century.

## MISSION

Strengthen the local Spanish speaking churches by providing opportunities for pastors to increase their Biblical, theological and academic education.

## SPECIFIC METHODOLOGY

### *I. Intensive Courses Through Modules and Seminars*

A thirty hour course every six weeks. Twenty hours of class lectures from Thursday night through Saturday afternoon. The additional ten hours will be virtual study plus readings, writing assignments, and online exams. Group discussions will be available locally or online.

### *II. Courses for Pastors and Local Students*

Pastors or students who live in the city where classes are held may attend intensive week long 30 hour courses or attend class during night hours or weekends.

### *III. Residence Campus in Medellín, Colombia*

Students who wish to study full-time for a year on the campus of Medellín, can take up to 24 courses of 30 hours each. Single students may live in the dormitory at the seminary. The total cost of education including room and board is US \$3,000. Other arrangements can be made for married students.

### *IV. Ministerial Practice Credits*

After a student finishes a certain number of courses, he can apply to receive credit for ministerial practice and expository preaching under the supervision of a USRL professor.

### *V. Modular Programs*

Students can take two intensive modular courses in one week, each including 20 hours of class time and 10 virtual hours.

### *VI. Virtual Courses*

USRL offers more than 30 online courses in Spanish and English including many courses provided by Third Millennium Ministry.

### *VII. Local Programs*

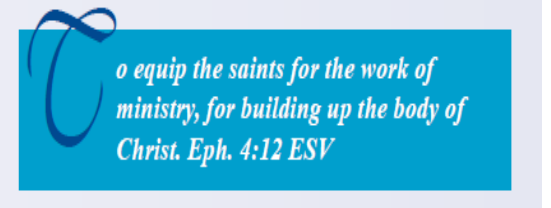

If the group of students in a city is larger than 15, professors are sent to that city to teach a 30-hour intensive course during evenings and weekend.

### *VIII. Conventions*

Annual conventions are held in different cities within the United States and Latin America to enhance learning and internalize concepts.
